# ROGUE ROBOTICS

SPONSOR INFORMATION

Rogue Robotics, based in Holmdel, NJ, is a not-for-profit organization comprised of highly motivated students from the Monmouth County Vocational School District (MCVSD). As members of Rogue Robotics, students participate in the MATE ROV underwater robotics competition to develop real-world engineering and technology skills. Students also attend regional and international technology conferences such as the World Maker Faire and the Mid-Atlantic Emerging Technologies Showcase at Bellworks, to network with experts in the field of underwater robotic technology.
